No Install Cost

Plug and play ready.

99.99% Uptime Guarantee

Our Fibre Ethernet services come with a stringent SLA, providing a 6-hour fix time.

Dedicated Connection, Unlimited Data, 100% Fibre Optic Internet

Our service is dedicated to each unit, so you get a private, uncontended connection all for yourself with no limits on your uploads and downloads, our fibre network allows you to use your connection without any caps.

Symmetrical Speeds

If you get for example a 1Gbps connection, that means you can get 1Gbps both ways - upload and download.

Value for Money

As the connection is live, you get connected straight away with no need for lengthy surveys and sometimes expensive wayleave agreements with various parties.

Resilience

With 2 fibre connections from different suppliers we have the ability to offer a resilient connection for uninterrupted broadband and automatic switch overs in the event the primary connection goes down.

PRIME CONNECT
